

## ☆ Note-taking App

Create a simple *note-taking* app. You should be able to:

- Add a note
- Edit a note
- Delete a note

Also make sure that:

- Each note should look like a colored rectangular box.
- Boxes can be colored in different colors, selected from a fixed list of colors.

CSSJavaScript (Node.js)HTML

? Draft saved 08:47 am

```
1  /* Add your css styles here */
2  #p_elem{
3      color: green;
4      font-weight: bold;
5      font-size:20px;
6      text-align: center;
7  }
```

Line: 7 Col: 2

Render
